

ROSEN

AVIATION

"Providing business and commercial aviation with premium cabin electronics"

PRODUCT CATALOG

WHY CHOOSE ROSEN?

As a founder of In Flight Entertainment, with over 3 decades of history rich in innovation and reliability, you can install Rosen's products with confidence. Every time. Here's why:

- Industry leading four year warranty on all our products
- Perennial OEM award winning service and support
- DO-160 SECTION 21 CAT M COMPLIANT
- Products that are the most reliable in the industry, providing enhanced aircraft value from acquisition through resale

Slim. Smart. Stylish.

Our newest HD display stylings complement any aircraft cabin interior. Using LED backlight technology, our displays are thinner, lighter, and more energy efficient than our previous versions. Designed to interface with major HD CMS systems, these displays provide breathtaking picture quality, enhancing the passenger's experience.

PLUG IN DISPLAYS

Utilizing the latest LED display technology, our 9" and 12" personal displays are thinner, lighter and require less power than older display technologies. 9" model is available in HD and composite input options.

9" HD & Composite

Personal Plug-In Display

Series Number: 9000

Model Shown: 9000-310

Key Specifications:

- 9.04" (w) x 6.29" (h) x 1.18" (d)
- Weight – 3.5 lbs
- Backlight – LED
- Resolution – 1280 x 760
- Operating power – 28VDC
- Brightness 400 cd/m
- HD Inputs – 3G HD-SDI
- Composite inputs - NTSC
- DO-160 Section 21 Category M compliant

12" HD

Personal Plug-In Display

Series Number: 1200

Model Shown: 1200-337

Key Specifications:

- 12.55" (w) x 8.14" (h) x 1.51" (d)
- Weight – 4.6 lbs
- Backlight – LED
- Resolution – 1280 x 800
- Operating power – 28VDC
- Inputs – 3G HD-SDI
- DO-160 Section 21 Category M compliant

BULKHEAD DISPLAYS

All-In-One Configurations

Enjoy your favorite movies with a crisp, clear picture on Rosen's LED bulkhead displays.

17.5" SlimLine

Series Number: 1702

Model Shown: 1702-003

Key Specifications:

- 16.81" (w) x 10.97" (h) x 1.6" (d)
- Weight – 7.3 lbs
- Backlight – LED
- Resolution – 1280 x 768
- Operating power – 28VDC
- Inputs – 2 3G HD-SDI, 2 HDMI/DVI
2 VGA, 2 composite
Accepts up to 1080P
- DO-160 Section 21 Category M compliant

19" SlimLine

Series Number: 1900

Model Shown: 1900-003

Key Specifications:

- 18.19" (w) x 11.93" (h) x 1.65" (d)
- Weight – 8.9 lbs
- Backlight - Fluorescent
- Resolution – 1440 x 900
- Operating power – 28VDC
- Inputs – 2 3G HD-SDI, 2 HDMI/DVI
2 VGA, 2 composite
Accepts up to 1080P
- DO-160 Section 21 Category M compliant

BULKHEAD DISPLAYS

Remote Monitor Electronics Box

Capable of driving display modules from 19" to 55" , the Remote Monitor Electronics Box does all the heavy lifting. We have moved the components that add weight, thickness and require thermal management away from the display module. This provides for the potential installations of larger displays than those that were traditionally installed on bulkheads, as well as no additional thermal management are required in the bulkhead

Remote Monitor Electronics Box

Model Number: 0700-107

Key Specifications:

- 11.72" (w) 1.98" (h) 7.02" (w)
- Weight 2.85 lbs
- Video Inputs – 2 3G HD-SDI,
2 HDMI/DVI, 2 VGA, 2 Composite
- Operating power – 28VDC
- Video formats 480i/576i through 1080P

BULKHEAD DISPLAYS

Modular Design

Remote Display Module

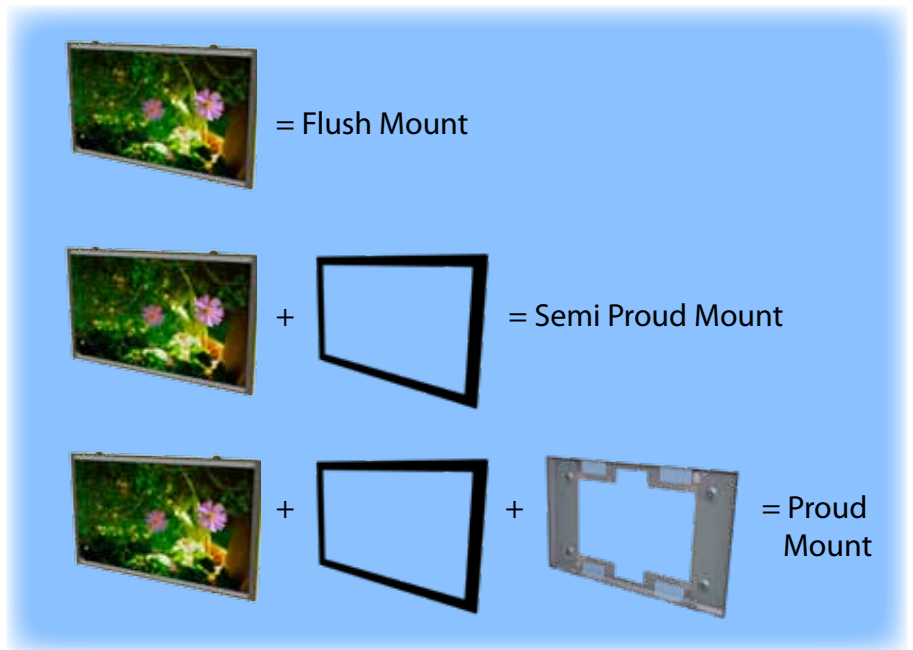

Optional Bezel Assembly

Optional Cosmetic Back Plate

By removing the electronics from the display assembly, we can offer larger displays in extremely thin and light assemblies, providing a significant increase in installation options. The remote monitor electronics box is a common part number to all remote electronic displays and can be mounted up to 50 feet from the display.

BULKHEAD DISPLAYS

Modular Design

Our latest generation of HD bulkhead displays are not only thinner and lighter, but have optional decorative front bezels and cosmetic back plates to provide an entirely new range of contemporary cabin designs and installation options. These new bulkhead displays provide for three distinct mounting options - traditional "flush mount", partial flush mount (or semi-proud mount), or mounted directly on the bulkhead (proud mount). Additionally, the decorative front bezel can be custom finished to match any aircraft cabin. See mounting option pictures below.

Traditional
Flush Mount

Semi Proud Mount
with front bezel

DISTRIBUTION PRODUCTS

Headphone Distribution Amplifier

Series Number: 0700

Model Shown: 0700-001

Key Specifications:

- 7.7" (w) x 1.4" (h) x 5" (d)
- Weight – 0.85 lbs
- Operating power – 28VDC
- 3 stereo analog audio inputs
- 1 mono microphone input
- 8 stereo outputs

Video Distribution Amplifier

Series Number: 0700

Model Shown: 0700-006

Key Specifications:

- 10.4" (w) x 1.9" (h) x 4.4" (d)
- Weight – 1.6 lbs
- Operating power – 28VDC
- 4 Composite inputs
- 8 Composite outputs
- 2 RGB Inputs
- 3 RGB Outputs

Audio Control Jack

Series Number: 0700

Model Shown: 0700-003

Key Specifications:

- Complete volume control
- Accepts standard 3.5mm (1/8 in) headphone jack
- Switch between available audio sources
